**SIMPLIFY YOUR FUEL MANAGEMENT
WITH**

MATRIX

MATRIX is a precision-engineered diesel storage and dispensing unit that acts as an on-site petrol pump. Designed for safety, convenience, and efficiency, it eliminates fuel runs and offers complete control over usage and tracking. Ideal for high-demand businesses, it ensures smooth operations and reliable, on-location fuel management.

DUAL SIZE AVAILABILITY

MATRIX is available in two size variants, specifically designed to suit different operational scales and fuel requirements. Whether you're managing a small fleet or a large-scale site, each model offers the same advanced features, ensuring reliable, efficient, and compliant fuel storage and dispensing.

MATRIX 2KL

CAPACITY: 1900LITRES

Built for larger industrial clients, high-rise towers, IT parks, and high-consumption use cases.

MATRIX 1KL

CAPACITY: 950 LITRES

Ideal for construction sites, small commercial buildings, fleet hubs, and temporary installations

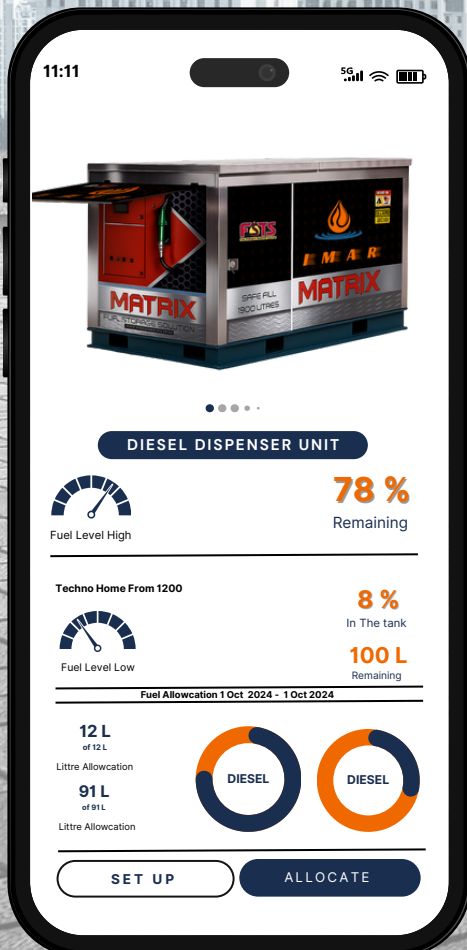

ORDER YOUR FUEL EASILY WITH

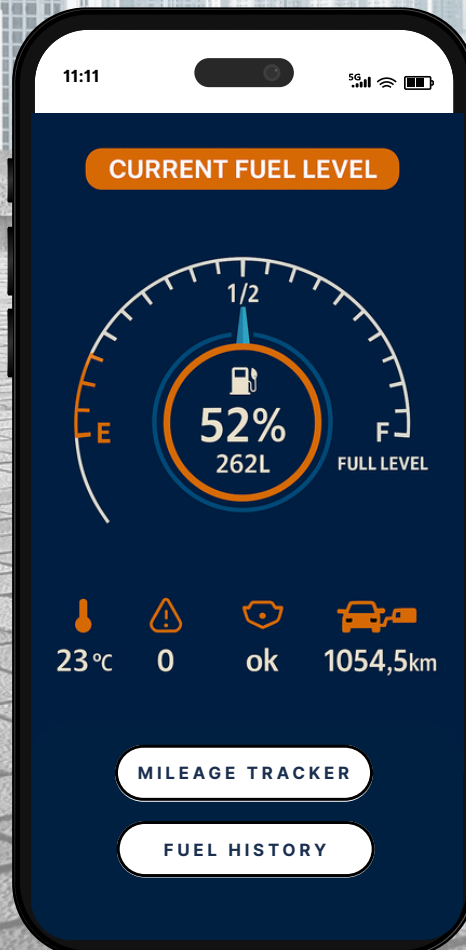

MATRIX

The IMAR mobile app enables live fuel monitoring, allowing users to track fuel levels, usage patterns, and refills in real time. It offers instant access to data, improving transparency, efficiency, and fuel accountability—right from your smartphone, anytime and anywhere
